**EFFICIENT**

**GROWS WITH THE PLANT**

**BIODEGRADABLE**

## **EFFICIENT, PRACTICAL and HIGHLY EFFECTIVE**

The bite protection CroPro grows with your plant and protects it efficiently. You can easily attach it to your plants in just a few seconds. This simple handling does not require any time-consuming and complicated assembly.

## **PROTECTION GROWS WITH YOUR PLANT**

Once attached CroPro, there is no need to move it afterwards, again. This is because our bite protection CroPro is designed to adapt to the growth of the main shoot. CroPro grows with the tree and offers continuous protection.

## **BIODEGRADABLE**

The bite protection CroPro is the environmentally friendly solution that not only protects plants from deer browsing, but also respects nature. Made from plant-based materials, CroPro only decomposes on contact with the soil without leaving any harmful residues. This guarantees a long shelf life on your plant.
